

mini-Q40 MK2

New MiniQ40-MK2 is a compact and reliable dive light. It has a user friendly push button tail switch that's easy to operate with gloves on. New optics system provides plenty of power and a strong focused beam for any kind of diving. Look under ledges, use it as a focusing light or attach it to your mask for a hands-free solution!

Large Push Button Switch

The robust power switch makes it easy to control the light even while using heavy gloves

New Optics

Powerful LED optics focus the light in a narrow beam for maximum visibility - even in murky water

Mask Strap

Mask Strap included for hands-free lighting
