Re: **Voluntary Recall of Certain Recent Galileo Sol and Luna dive computers**

Dear Authorized Scubapro Dealer:

SCUBAPRO has notified the U.S. Consumer Product Safety Commission (CPSC) that it is voluntarily recalling 1,486 UWATEC Galileo Luna and Sol dive computers sold in the United States beginning May 7, 2015. This letter will provide you with information on the recall along with details on the logistics that will be used to complete the recall.

We learned from a small number of consumer communications that certain Galileo dive computers experienced screen freezes. **No injuries have been reported.** Out of an abundance of caution, and consistent with our safety-first philosophy, SCUBAPRO is voluntarily recalling dive computers with serial numbers below. All other versions of Galileo computers can be used with confidence in the product's quality and performance.

The affected products are UWATEC Galileo Luna and Sol dive computers with these serial numbers:

- Galileo LUNA: from **150422 0058 001** to **150903 0338 005**
- Galileo SOL: from **150423 0202 001** to **150921 0001 005**

SCUBAPRO is working with the CPSC to ensure affected computers are returned to an authorized SCUBAPRO dealer or to SCUBAPRO directly in postage-prepaid boxes. Dealers and consumers will receive free replacement units in early 2016.

Your cooperation and assistance is critical to help ensure customers' safety and satisfaction. Here is what you need to do:

1. **Stop** the sale of the affected products immediately.
2. **Check** your inventory and isolate the affected dive computers identified above, which have the following part numbers:

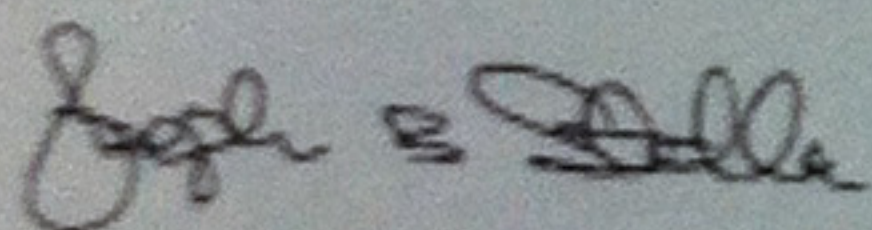

- | | |
|--|------------------|
| a) Galileo SOL with Tank Pressure Transmitter | P/N # 05.077.200 |
| b) Galileo SOL wrist computer only | P/N # 05.077.201 |
| c) Galileo LUNA with Tank Pressure Transmitter | P/N # 05.076.200 |
| d) Galileo LUNA wrist computer only | P/N # 05.076.201 |

3. **Return** all affected products to SCUBAPRO Technical Services (1166-A Fesler St., El Cajon, CA 92020) as soon as possible using the postage-prepaid label enclosed (Exhibit 1).
 - a. *If the product is from your inventory:* Please complete a Recall Form (Exhibit 2) for each recalled item you have in stock, providing your company name under "Customer Information" and inserting "Dealer Inventory" on the "Purchase Information" section.
 - b. *If the product is from a customer:* Please have customers complete or complete on their behalf, a Recall Form (Exhibit 2) for each returned product.
4. **Post** a copy of the Recall Notice poster in a prominent location in your facility when we send it to you along with the joint press release. If you maintain a website, we would appreciate you posting it there too.
5. **Review** your sales and service records for customers that own affected products. Immediately provide SCUBAPRO Technical Service (recallinfo@scubapro.com) with contact information (Name, address, telephone number and email address) for customers to whom you have sold the products included in this recall.
6. **Contact** all customers who have purchased the affected units. Advise them to stop using the computer and return it to you or to SCUBPRO directly for a free replacement.

Like you, our number one priority is the satisfaction and safety of our customers. We appreciate your cooperation in assisting us with the recall process as efficiently as possible.

If you have any questions, please call us at SCUBAPRO Technical Services at 800-790-3757 between 8:00 AM and 5:00 PM Pacific Time or email us at recallinfo@scubapro.com.

Sincerely,

Joe Stella
